

ELIAN JORGE NAHUEL

Full Stack Developer | Backend & Architecture

Buenos Aires, Argentina | elian.nahuel0348@gmail.com | github.com/eliann313 | linkedin.com/in/eliannahuel

PROFESSIONAL PROFILE

Senior Technology student and current student of a Bachelor's degree in Data Science, with a primary focus on backend development and data modeling. Experience building web applications and multi-tenant systems using technologies such as Python (FastAPI), Node.js, React, Angular, TypeScript, and MongoDB. Strong interest in software architecture, API design, problem-solving, and delivering scalable solutions following software development best practices.

TECHNOLOGIES & TOOLS

Backend: Python (FastAPI), Node.js (Express), C# (basic knowledge)

Frontend & Mobile: JavaScript, TypeScript, React (TSX), Angular, Ionic, HTML, CSS

Databases: MongoDB, SQLite

ORM / ODM / Migrations: SQLAlchemy, Alembic, Mongoose

Tools & Environment: Git, GitHub, Docker, Linux, CI/CD (basic knowledge)

PROJECTS

GridHub WMS | Multi-tenant logistics management system | in development

- Contributed to the design of a multi-tenant backend architecture with per-client data isolation, using FastAPI and SQLAlchemy.
- Participated in relational data modeling and migration management with Alembic.
- Collaborated in defining a layered architecture (Onion Architecture).
- Contributed to the development of frontend modules in React (TSX) integrated with the backend via API REST
- Collaborative work using Trello and agile methodologies.

Stack: Python, FastAPI, SQLAlchemy, Alembic, React (TSX), SQLite

Pochocleando | Movie and series review web app integrated with TMDB API

- Designed and implemented data schemas with MongoDB and Mongoose for users, reviews, and favorites.
- Participated in the implementation of user authentication and session management.
- Collaborated in frontend development with Angular and TypeScript.
- Participated in the development of Pochi, an AI assistant integrated into the platform using the Gemini Flash 2.5 API.

Stack: JavaScript, TypeScript, Angular, Node.js, Express, MongoDB, Gemini API

Web: pochocleando.com

PokeApp | Hybrid web/mobile application integrated with PokeAPI

- Participated in the implementation of user authentication with Firebase.
- Collaborated in consuming and integrating an external API (PokeAPI) and in interface development with Ionic and Angular.

Stack: TypeScript, Angular, Ionic, Firebase, HTML, CSS

EDUCATION

Bachelor's Degree in Data Science — 2026 - Present

Universidad de la Ciudad Autónoma de Buenos Aires

Higher Technical Degree in Software Development — 2023 - 2025

Instituto de Formación Técnica Superior N°11

LANGUAGES

Spanish (Native) | English (Intermediate — technical reading and basic communication)
